Introduction

When you go on holiday abroad, it's important to be able to communicate with the natives. It's useful to know, for example, whether the policeman who is trying to bundle you into the back of a van with his truncheon up your arse is calling you a *bastard* or a *cunt*. With this book, you will not only be able to understand him, but you'll also be able to retort in a suitably charming manner.

Many wars have started due to language barriers. Do your bit for international accord and learn to speak in their tongue. Just make sure you wash your mouth out afterwards.

Very brief note:

As Ambassador of All Things Sweary, I am anxious that you cause great offence without further delay. Therefore, rather than confuse you with matters of gender (Le or La cul etc.) – *I'm not referring to your own gender: one would hope that you've managed to suss that yourself by now* – I have provided you with generic swearwords in their most basic, easy-to-use, boil-in-the-bag, chicken-in-a-basket, painting-by-numbers, plug-and-play, one-up-the-arse sort of way.

Happy swearing, or as the French say '*Va te tripoter*'!
