It's time for school.

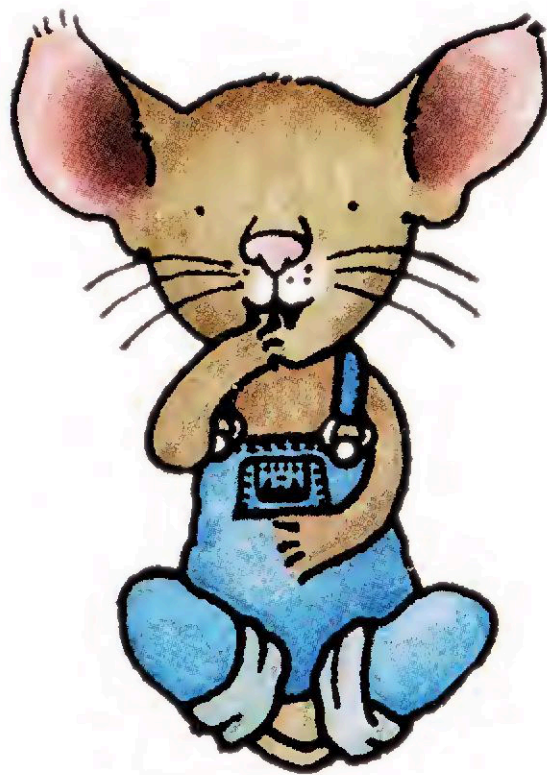

Mouse has a new lunchbox.
Where is his backpack?

Here it is!

Where are his notebooks?
And his pencils?

Here they are.

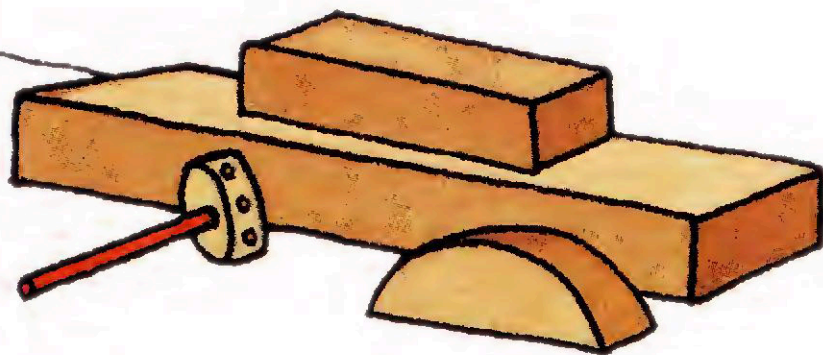

Oh no, where did Mouse put
his *homework*?

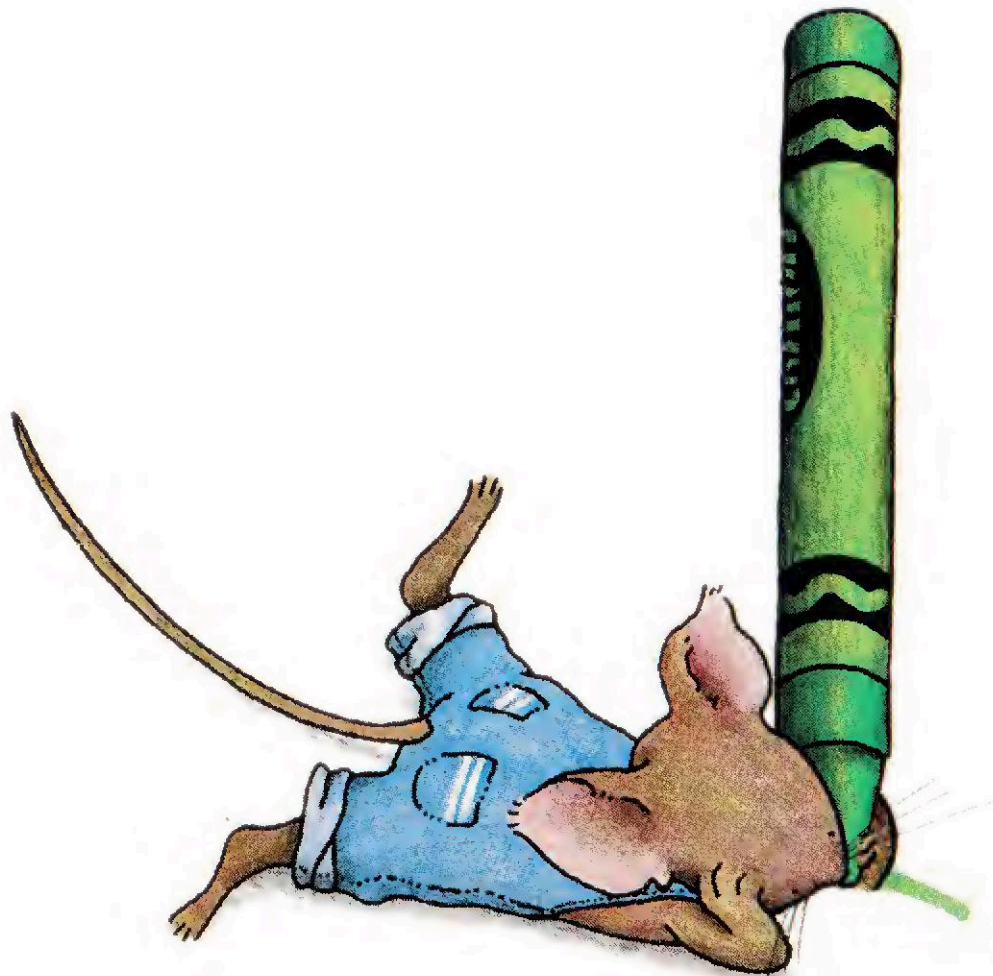

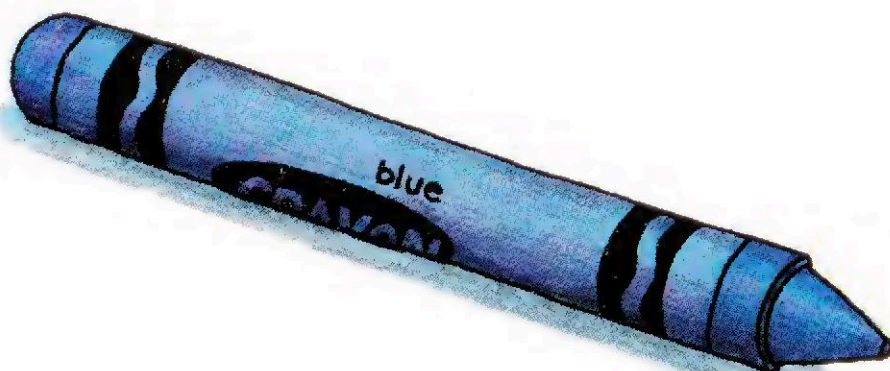

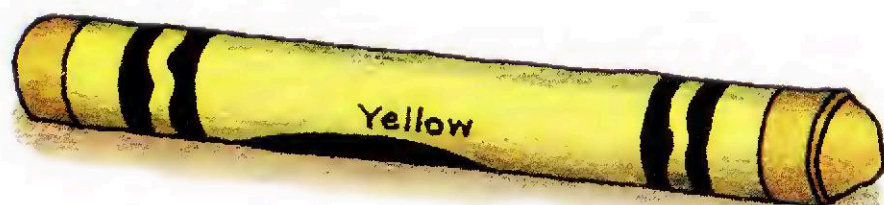

Mouse looks for his homework,
but he finds his teddy bear instead.

Mouse looks for his homework,
but he finds his crayons instead.

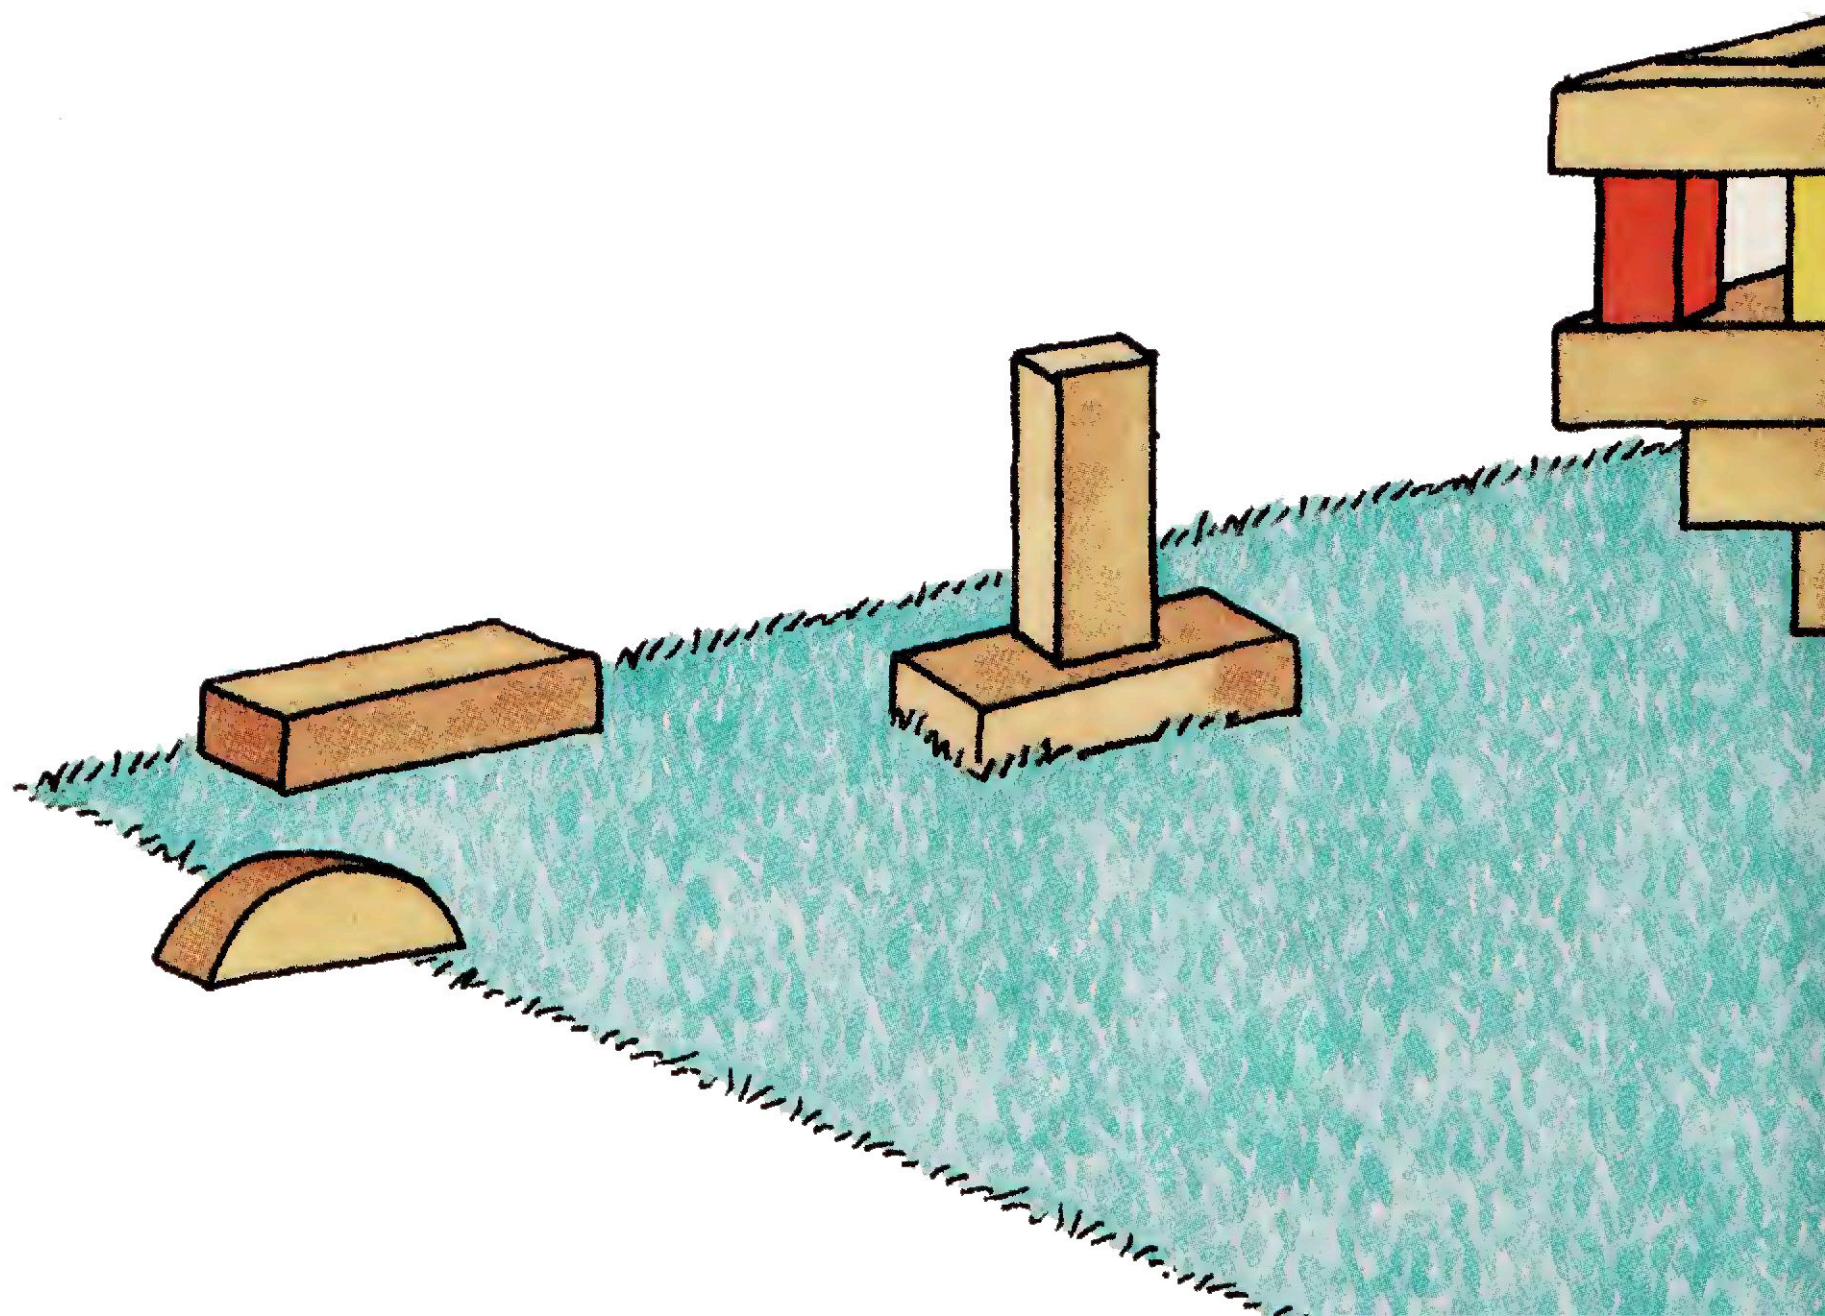

Mouse looks for his homework,
but he finds his cookies instead.

Mouse finds his doctor's kit and his
baseball. But no homework.

Ah, there it is!

$$09z = x + z$$

$$s_2 f_2 + 459 - (z^2 + bb)$$

$$A + N + c \quad [6\pi \Sigma]$$

$$\xrightarrow{\quad \quad \quad} \frac{CN3}{2}$$

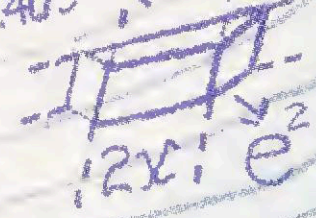

$$A - Q - z$$

$$n \div \left| \frac{x}{a} \right| \frac{8b}{4c}$$

$$\left(\frac{x}{4} \div \frac{18}{1000} \right) + N^2 \sqrt{12.403 - (z + \sim)}$$

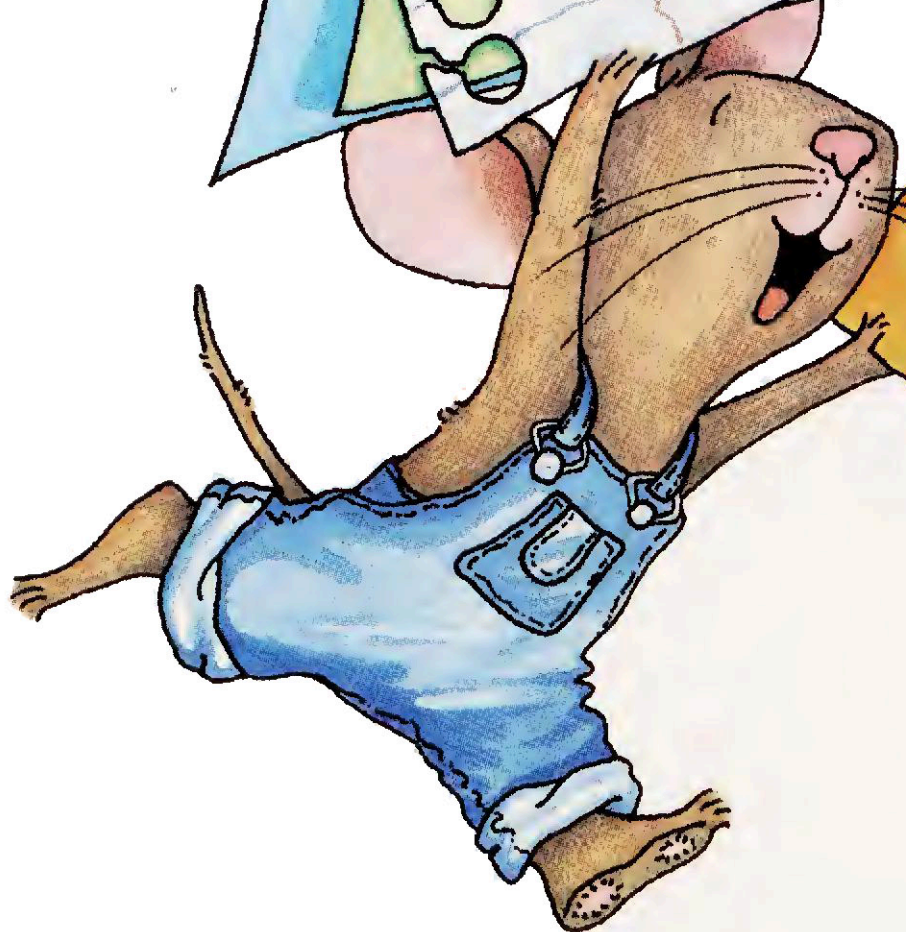

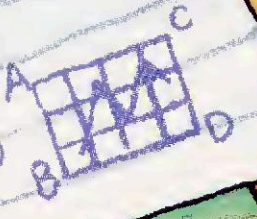

$$\frac{n}{4} \downarrow$$

$$12x! e^2$$

$$\pi r^2 + (x)$$

$$128\pi + 4N - \phi$$

Time for school, Mouse!

The End
